Tens of thousands of operations cancelled because of staff shortages and faulty equipment, NHS figures show

Tens of thousands of people have had their operations cancelled because of staff shortages and faulty medical equipment, according to newly revealed NHS figures.

The number of procedures called off by hospitals for non-clinical reasons has increased by 32 per cent in the last two years, the statistics obtained via a freedom of information (FOI) request. Almost 4,000 more were

Missing kit wasting nursing time

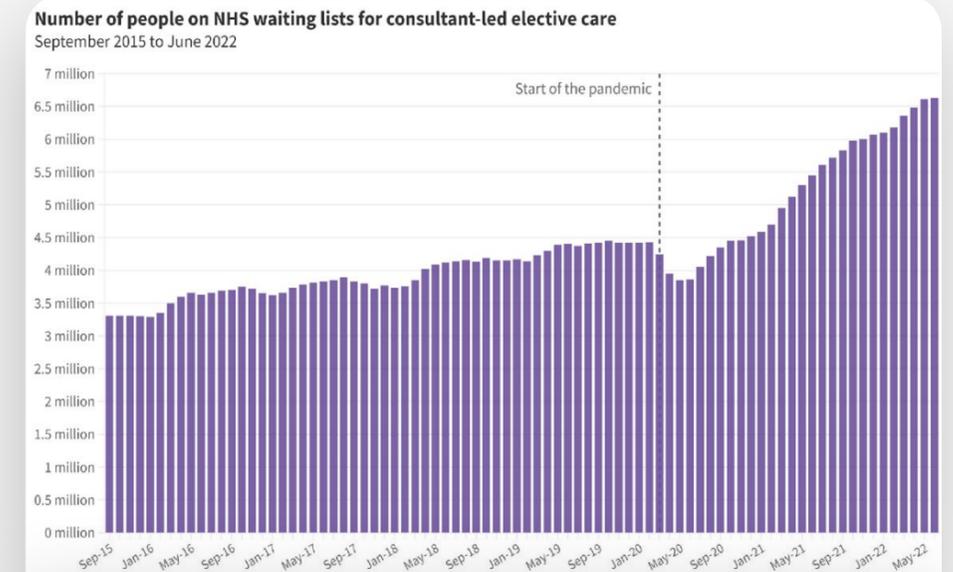

More than a third of nurses waste up to two hours a shift searching for missing medical equipment, a survey suggests.

This equates to 40 hours a month and £900m of NHS wages a year spent hunting for missing pumps, drip stands, thermometers and drugs cupboard keys.

DMO00001

A graphic showing a hand holding a smartphone with a QR code on the screen. The QR code is being scanned by a green frame. The background is green with white stars. To the right of the graphic is a large QR code and the code 'DMO00001'.

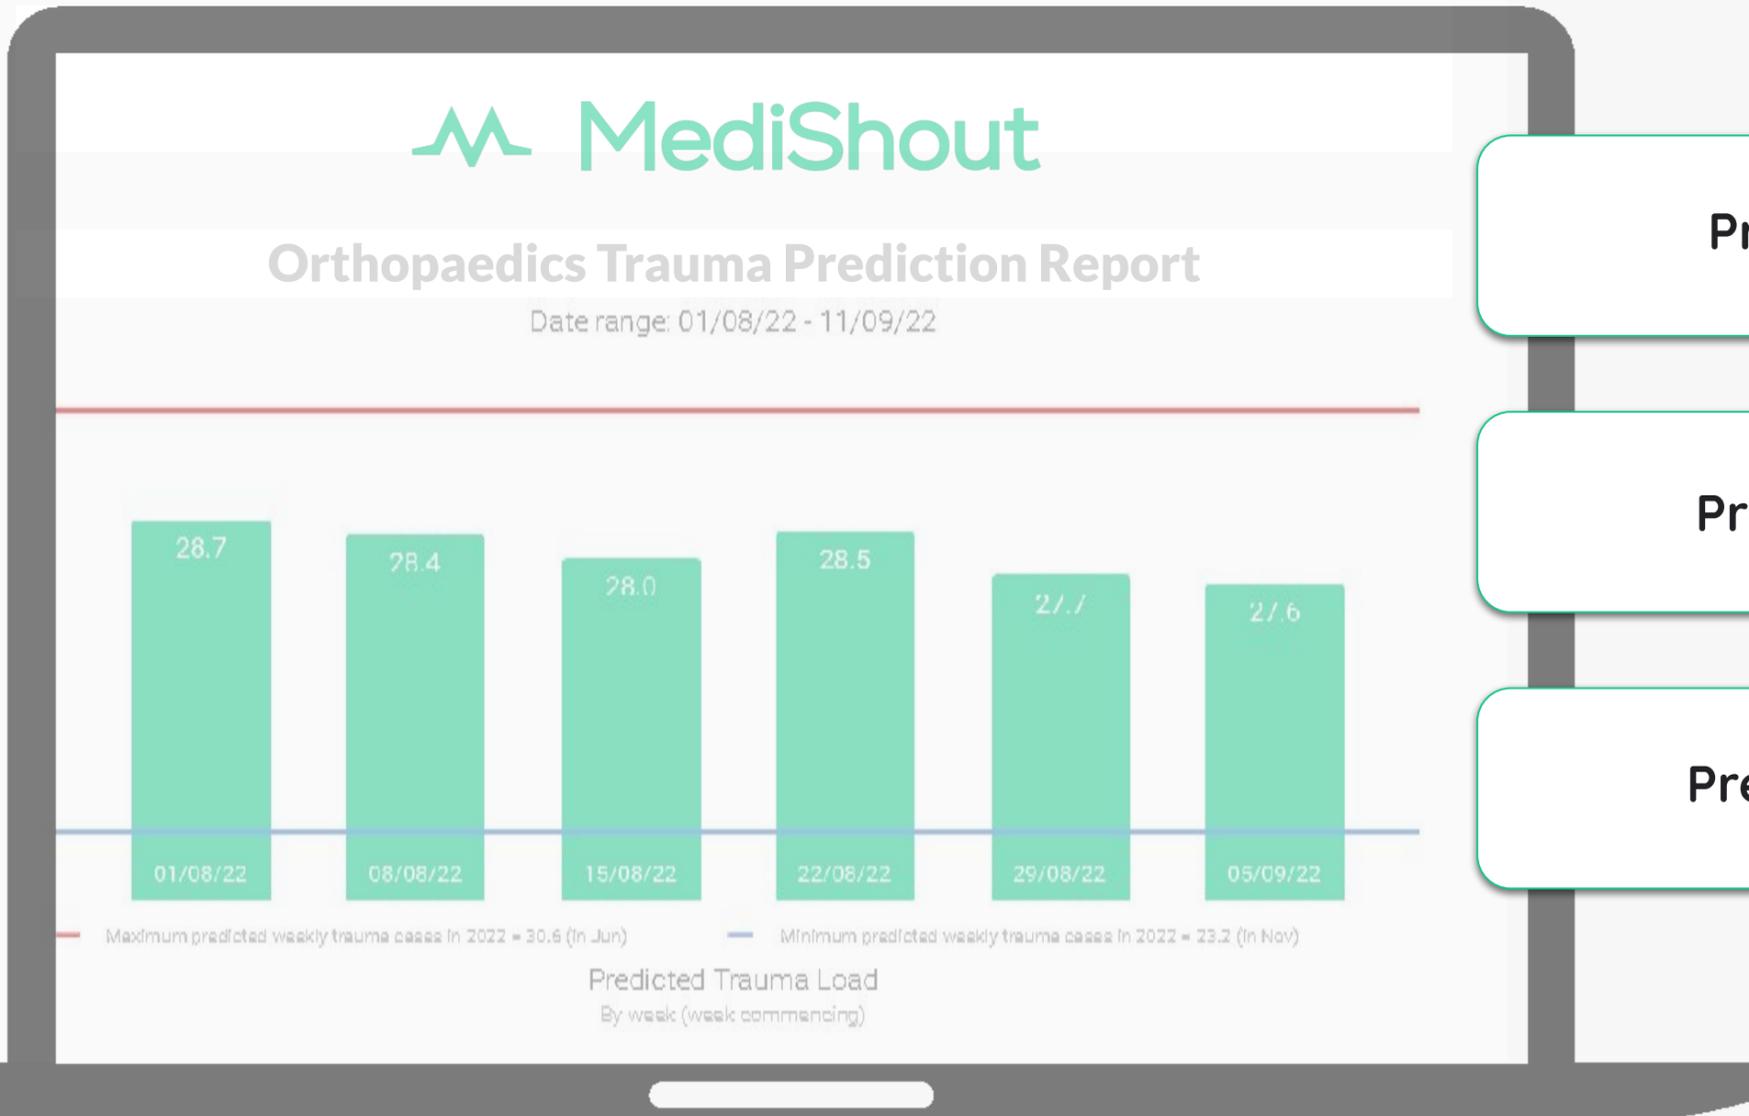

Track All Data In Real-Time

The screenshot displays the MediShout dashboard interface. At the top, the MediShout logo and a notification bell are visible. The main content area is titled 'Inbox' and features five summary cards: 'Total Shouts: 18' (purple), 'Unread: 7' (pink), 'Read: 0' (pink), 'In Progress: 7' (light blue), and 'Completed: 4' (green). Below these cards is a filter bar with dropdown menus for 'Status', 'Site', '1 Form', and 'Location', along with a search field. A 'TABLE SETTINGS' button and pagination controls are also present. The main data table has columns for ID, Status, Notes, Internal ref., Created, Completed, and Assignee. The table contains three rows of data, all with a status of 'Approved to Send'.

ID	Status	Notes	Internal ref.	Created	Completed	Assignee

Case Studies

Hospitals

Medical Device Company

1. General: Multiple Modules

Site

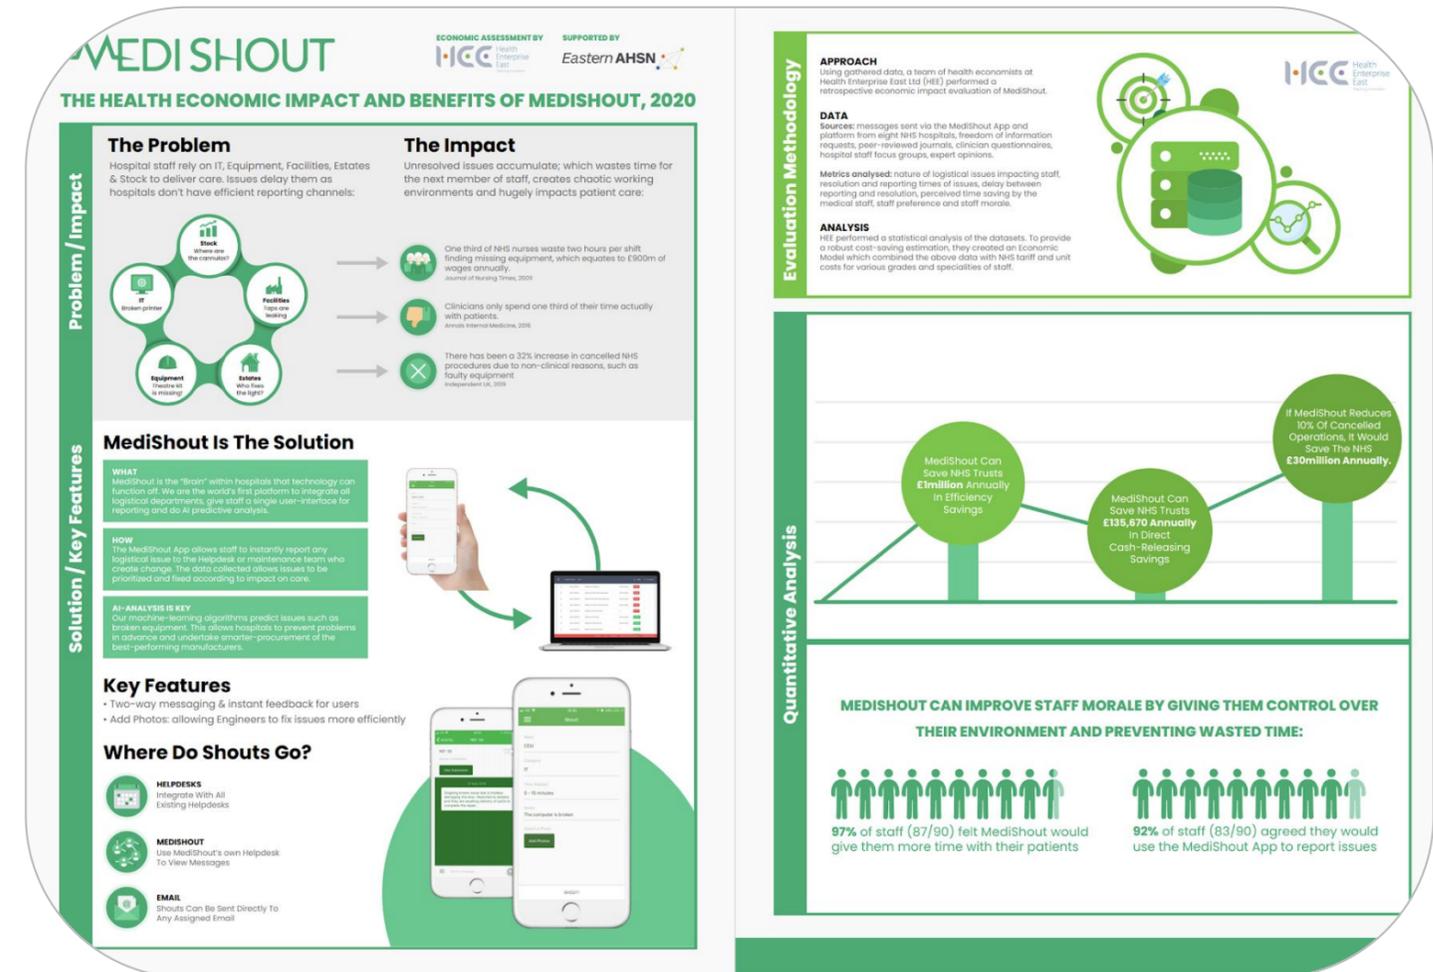

Mid-and-South Essex NHS Trust

Summary

10,000 staff are using these modules: Estates, Facilities, HR, Equipment, Endoscopy, Sterile Services, Maternity

Benefits

- Save NHS Trusts £1m annually in efficiency gains
- Reporting time: 10 mins to 35 seconds
- Give 97% staff more time with patients

2. General: Surgical Wards

Site

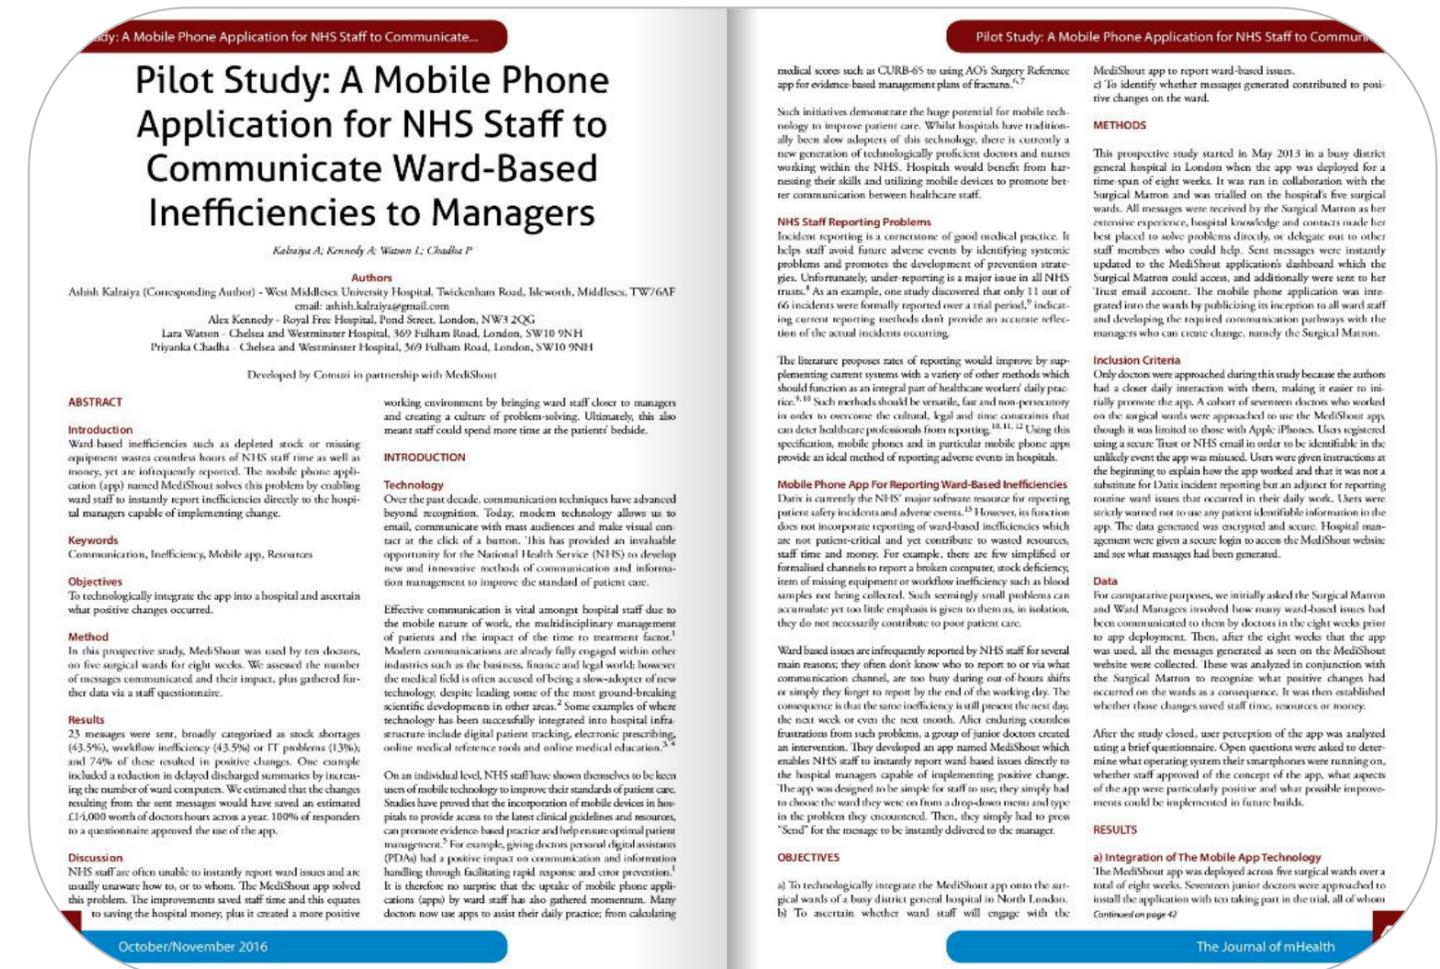

West Hertfordshire NHS Trust

Summary

MediShout launched across all surgical wards and established excellent adoption.

Benefits

- 15 minutes saved daily per staff member

3. Facilities: Housekeeping

Site

Addenbrookes Hospital, Cambridge

Summary

129 QR codes in public areas for anyone to report facilities issues quickly and easily e.g. dirty toilets, spillages, low hand-gel

Benefits

- 55% of QR codes scanned by patients/visitors
- Save 7 minutes staff time per QR code scanned
- Save £15,000 staff time annually

DMO00001

The graphic features a hand holding a smartphone with a QR code on the screen and a 'SCAN' button. To the right is a larger QR code with the alphanumeric code 'DMO00001' below it. The background is green with white text and a pulse line logo.

3. Facilities: Portering

Site

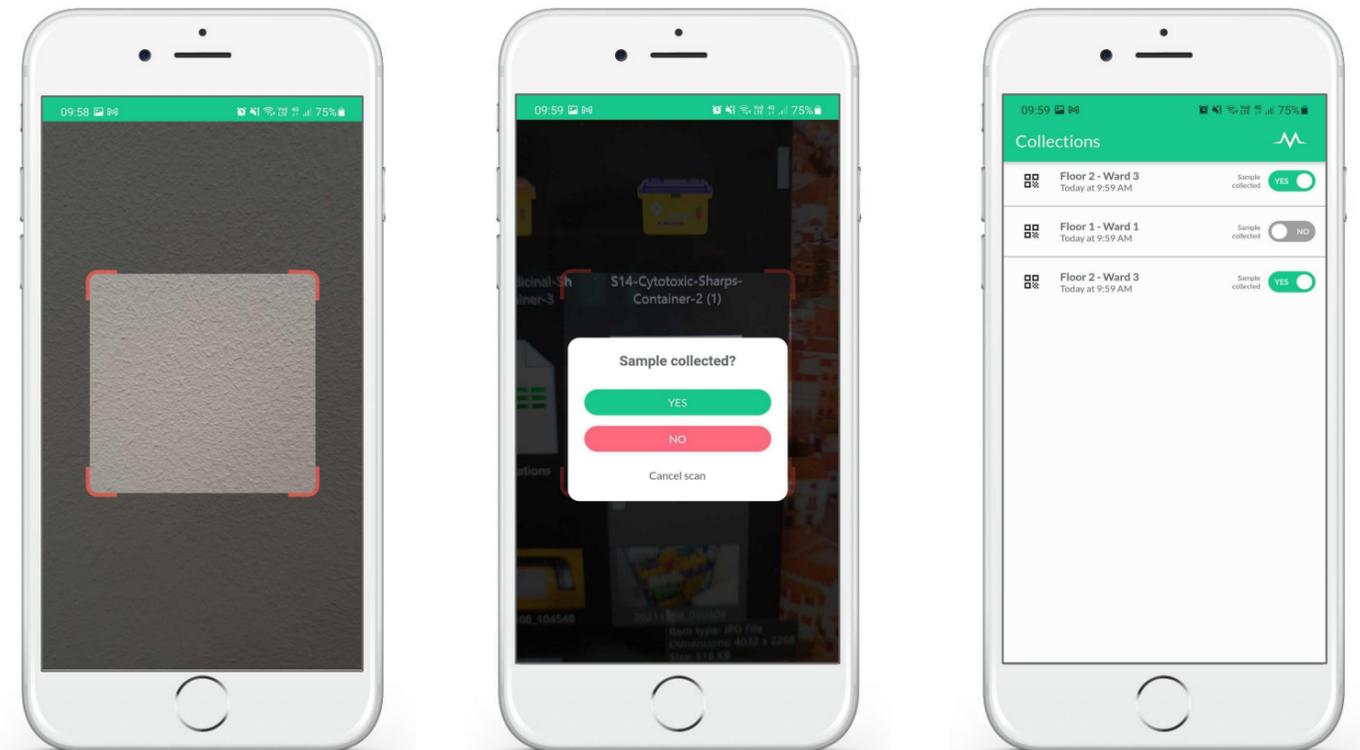

Chelsea and Westminster NHS Trust

Summary

Ward staff were unaware when porters would collect specimens (e.g. bloods), leading to patient care delays

Benefits

- Porters now scan QR code when collecting specimens
- Staff can see porter ETA and arrival times
- Since MediShout, no ward complaints

5. Facilities: Waste Management

Site

University Hospitals Coventry & Warwick (UHCW)

Summary

UHCW use reusable sharps bins which are cleaned off site. Complex logistics results in missing bins or too few bins; causing cancelled operations.

Benefits

- MediShout enables real-time asset tracking of bins
- Improved waste management for NHS
- Porters satisfaction improved with new system

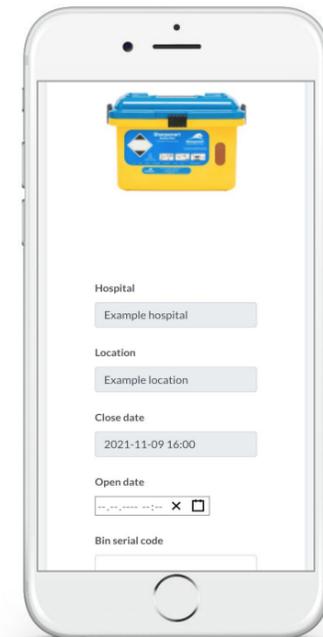

Image	Type of bin name...	Qty collected name...	Qty dropped off name...
	S14-Cytotoxic-Sharps-Container-small	2	1
	S14-Cytotoxic-Sharps-Container-medium	1	1
	S14-Cytotoxic-Sharps-Container-large	0	0
	S14-Cytotoxic-Sharps-Container	3	3
	S12-Radio-active-Waste-Container	0	0
	S22-pharmaceutical-waste-container	0	0

7. Equipment: Theatre Equipment

Site

Mid-and-South Essex NHS Trust

Summary

MediShout integrated medical device companies with real time hospital data; to improve reactive jobs, purchase orders and enable faster PPMs.

Benefits

- 38% less admin steps
- Kit returned from OEM 39 days faster
- Save 1h 20m of staff time per kit fixed

The screenshot displays the 'Wash Room Dashboard 1' interface. It features six panels, each representing a different department with a table of equipment. Each table has columns for ID, Priority, Description, and BRO #.
